Skills & Technologies

Frontend Development, Web Accessibility, Design Systems, Data Visualization

HTML, CSS, Git, Javascript, Typescript, React, Angular, RxJS, D3.js, Cypress, Jasmine

Work Experience

pass Culture – **Senior Frontend Developer - Accessibility & Design System** (Paris, France)

Jul. 2023 – Now

The French government's Culture Pass is a set of mobile and web apps designed to promote knowledge of and access to cultural offerings for everyone under 18.

- Developing the React frontend of a web app to enable professionals in the cultural sector to offer events to schools.
- Improving web accessibility across products from adjusting HTML attributes to strategic planning.
- Leading the web development of the new pass Culture Design System initiative.

Manadge – **Software Engineer - Frontend** (Paris, France)

Oct. 2019 – Jun. 2023

Manadge is an adTech startup company building a SaaS platform that helps aggregate and monitor advertising revenues. I was hired as the first employee and worked as the main frontend developer for almost 4 years.

- Built the frontend of the Angular app from scratch in a sector where data precision is primordial and enjoyable UX & UI are very much welcome.
- Designed and developed reusable styles and components libraries to homogenize the company web apps.

Freelance – **Data visualization developer and designer** (Taipei, Taiwan & Paris, France)

Jan. 2019 – Oct. 2022

- In 2019 in Taipei I helped the company Neuftek build a reputation visualization and aggregation tool for political parties right before the 2020 elections.
- In 2022 and 2023 I collaborated with the investigative journalism outlet 'Forbidden Stories', building a "scrollytelling" and an interactive map regarding the 1 year anniversary of the Pegasus Project revelations.

IBM France – **Technical consultant - Analytics & IoT & web frontend** (Paris, France)

Feb. 2017 - Jan. 2019

After getting my telecommunication master's degree I joined the consulting services at IBM France.

- Participated in Internet of Things web projects regarding Industry 4.0.
- Analyzed and visualized data with R and d3.js to understand and optimize factory line operations.

Education

Master's degree in telecommunications & networks – Télécom SudParis (Paris, France) 2014 - 2017

Maths & physics preparatory classes for the grandes écoles - Lycée Chaptal (Paris, France) 2012 - 2014

Baccalauréat in Sciences (British A-Level) - Lycée Saint-Paul (Vannes, France) 2009 - 2012
